

WATER<sup>TM</sup>  
STATION

Water Systems *Engineered* for the Way You Live<sup>TM</sup>

**Water Doctors<sup>SM</sup> Water Station<sup>TM</sup>** point-of-use water purification systems provide pure, delicious, hot and cold drinking water right where you need it. These bottle-less, plumbed-in systems are available as self-contained purification units with installed reverse osmosis or micro filtration systems, or without filtration for quick connection to a Water Doctors<sup>SM</sup> Water Hub<sup>TM</sup>.

Water Doctors<sup>SM</sup> replace expensive, unsanitary and cumbersome bottled water coolers and fountains with a clean, convenient, environmentally friendly and economical solution.

**Filter Options:**

3-stage  
1-Micron  
Micro Filtration

4-stage  
100 Gallon per Day  
Reverse Osmosis

Without filters  
for use with a  
Linis Water Hub<sup>TM</sup>
